

How to create a PDF file from multiple photos

on an iPad or iPhone

Requirements

The Apple app [Notes](#) must be installed on your iPad or iPhone.

Go to the Notes app on your iPhone or iPad and open it.

To create a new note, tap .

Tap the camera button , then tap “Scan documents” .

Place your document in view of the camera.

If your device is in “Auto” mode, the document will automatically scan. To manually capture a scan, tap the shutter button  or one of the volume buttons. Then drag the corners to adjust the scan to fit the page, then tap “Save”.

After saving the scan, you find the file in the documents on your device.
